Receipt of Application for Incidental Take Permit; Low-Effect Habitat

Conservation Plan for BAE Hollister Test Facility, San Benito County, California

AGENCY: Fish and Wildlife Service, Interior

ACTION: Notice of receipt of permit application; request for comments.

SUMMARY: We, the U.S. Fish and Wildlife Service, have received a request from BAE Systems Land and Armaments L.P., for an incidental take permit under the Endangered Species Act of 1973, as amended. The permit would authorize take of the federally endangered San Joaquin kit fox and the threatened California red-legged frog and California tiger salamander, incidental to otherwise lawful soil remediation activities associated with the BAE Hollister Test Facility Habitat Conservation Plan. We invite public comment.

DATES: Written comments should be received on or before [INSERT DATE 30 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER].

ADDRESSES: You may download a copy of the draft habitat conservation plan and draft low-effect screening form and environmental action statement on the internet at <http://www.fws.gov/ventura/>, or you may request copies of the documents by U.S. mail to our Ventura office, or by phone (see **FOR FURTHER INFORMATION**

CONTACT). Please address written comments to Stephen P. Henry, Field Supervisor, Ventura Fish and Wildlife Office, U.S. Fish and Wildlife Service, 2493 Portola Road,

Suite B, Ventura, CA 93003. You may alternatively send comments by facsimile to (805) 644–3958.

FOR FURTHER INFORMATION CONTACT: Christopher Diel, Fish and Wildlife Biologist, at the above address or by calling (805) 644–1766.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service, have received a request from BAE Systems Land and Armaments L.P., for an incidental take permit under the Endangered Species Act of 1973, as amended (16 U.S.C. 1531 et seq.; Act). The applicant has agreed to follow all of the conditions in the habitat conservation plan for the project. The permit would authorize take of the federally endangered San Joaquin kit fox (*Vulpes macrotis mutica*) and the threatened California red-legged frog (*Rana draytonii*) and California tiger salamander (*Ambystoma californiense*), incidental to otherwise lawful activities associated with the BAE Hollister Test Facility Habitat Conservation Plan (HCP). We invite public comment on the application and related documents.

Background

The San Joaquin kit fox was listed by the Service as endangered on January 24, 1997. The California red-legged frog and California tiger salamander were listed by the Service as threatened on May 23, 1996 and August 4, 2004, respectively. Section 9 of the Act and its implementing regulations prohibit the “take” of fish or wildlife species listed as endangered or threatened. “Take” is defined under the Act to include the following activities: “[T]o harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct” (16 U.S.C. 1532); however, under section

10(a)(1)(B) of the Act, we may issue permits to authorize incidental take of listed species. “Incidental Take” is defined by the Act as take that is incidental to, and not the purpose of, carrying out of an otherwise lawful activity. Regulations governing incidental take permits for threatened and endangered species are, respectively, in the Code of Federal Regulations at 50 CFR 17.32 and 17.22. Under the Act, protections for federally listed plants differ from the protections afforded to federally listed animals. Issuance of an incidental take permit also must not jeopardize the existence of federally listed fish, wildlife, or plant species. All species included in the incidental take permit would receive assurances under our “No Surprises” regulations (50 CFR 17.22(b)(5) and 17.32(b)(5)).

The applicants have applied for a permit for incidental take of the San Joaquin kit fox, California red-legged frog, and California tiger salamander. The potential taking would occur by activities associated with the soil remediation activities at the BAE Hollister Test Facility in suitable habitat for the covered species.

Preliminary Determination

The Service has made a preliminary determination that issuance of the permit is neither a major Federal action that will significantly affect the quality of the human environment within the meaning of section 102(2)(C) of the National Environmental Policy Act (42 U.S.C. 4321 et seq.; NEPA), nor will it individually or cumulatively have more than a negligible effect on the species covered in the HCP. Therefore, the permit qualifies for a categorical exclusion under NEPA.

Public Comments

If you wish to comment on the permit applications, plans, and associated documents, you may submit comments by any one of the methods in **ADDRESSES**.

Public Availability of Comments

Before including your address, phone number, e-mail address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public view, we cannot guarantee that we will be able to do so.

Authority

We provide this notice under section 10 of the Act (16 U.S.C. 1531 *et seq.*) and NEPA regulations (40 CFR 1506.6).

Dated: August 9, 2017
